

Ms. Christi Jacobsen
Montana Secretary of State
Helena, MT

May 8, 2023

RE: SB 442 Veto Override Poll

Dear Sec. Jacobsen,

We, the undersigned, respectfully request that you poll the members of the 2023 Montana Legislature, allowing them the opportunity to override the Governor's veto of Senate Bill 442. Senate Bill 442 is a rare example of a truly bipartisan bill, endorsed by over 100 organizations including counties, conservation, energy and utility industries, timber companies, agriculture, veterans, healthcare, labor unions, hunting and angling organizations, and more. The bill secures historic investments in rural infrastructure, wildlife, working farms and ranches, veterans' services, mental health programs, and more.

The Montana Constitution is clear under Article VI, Section 10, that when the legislature is not in session, "The Secretary of State shall poll the members of the Legislature by mail and shall send each Member a copy of the Governor's veto message. If two-thirds or more of the Members of each House vote to override the veto, the bill shall become law."

Although the Governor signed a veto memo on May 2, the Senate was not made aware of the veto (it was not "read across the rostrum") before the Senate officially ended the chamber's legislative session (adjourning "sine die"). This does not satisfy the governor's constitutional mandate to ensure the legislature "receives" the veto pursuant to Article VI, Section 10, subsection 3.

We respectfully ask you to reject any arguments that would effectively deny or diminish the Legislature's constitutionally based authority to override vetoes. Instead, we urge you to exercise your constitutional authority and responsibility as an independently elected official to poll the legislature.

A failure to act by your office would pose significant threats to the constitutional rights of future legislatures and permanently diminish the power of the legislature in relation to the executive. If the legislature is not polled and is effectively denied the opportunity to override the veto, future governors will be incentivized to 1.) veto bills in secrecy toward the end of legislative sessions; 2.) hold those vetoes in secrecy until one chamber adjourns, 3.) immediately deliver the veto to the chamber still present; and 4.) then claim the veto cannot be overridden either in person or by poll. Surely such an interpretation cannot stand.

We respectfully request that you fulfill your constitutional obligation to poll the members of the Legislature. Over 130 legislators voted in favor of Senate Bill 442, and they deserve the chance to have a final say on legislation that directly impacts the lives and livelihoods of their constituents.

Sincerely,

Phil Aaberg
